

**2015 GNSS Social Director Candidate**  
**Emily Clarke**

Hello fellow graduate nursing students,

My name is Emily Clarke, I am currently finishing up my second semester of the MN-NP (peds) program. I recently moved to Toronto from St. John's NL to study full time. I completed my undergraduate nursing degree at Memorial University of Newfoundland in St. John's.

During my undergraduate experience I was president of my graduating class as well as elected to president of the MUN Nursing Society from 2008-2009. As my class president I was responsible for organizing fundraisers for our graduation gala, as well as planning the gala. As society president a major responsibility I had was to organize and execute orientation week for the incoming undergraduate students, as well as plan social events within the nursing group, as well as with other faculties.

I really enjoyed my time working with the nursing society as an undergraduate experience and look forward to becoming involved as a graduate student at the Bloomberg faculty. Thank you for taking the time to read my short bio!
